

Session 2018-19

In our college Environment Cell is working under able leadership of Principal Dr. K.J. cherian. The main goal of this cell is to make aware students and local people about the surrounding environment and encourage them to take participation in conservation of nature.

Every year we encourage students to take participation in rally and nature trails to aware people at large about environment protection. Under the banner of Environment Cell, students of our college regularly take participation in various competitions to express their knowledge and skill regarding concern about environment. Coordinator of this cell is Dr. Rajkumar Khapekar.

Under the banner of environment cell, various programs were conducted.....

- 1) **Nirmalya Sanklan** - Every year along with the students and enthusiastic staff members were present at Naik Lake during Ganesh visarjan and collect Nirmalya from devotees and handed over to N.M.C. officials for proper composting. Also appeal not to immerse idols in natural lake, instead they must use artificial tanks for the purpose of idols immersion.
- 2) **Excursions** - Every year we arrange excursions for student to make them aware about functioning of ecosystem and importance of nature conservation.
- 3) **Nature conservation Day** - Celebrated in collaboration with forest department, Govt. Of Maharashtra.
- 4) **Plastic free Sindhu** – Essay competition and awareness campaign.
- 5) **E-waste collection** – To prevent solid waste pollution by e-waste.
- 6) **Distribution of earthen pots** – We encouraged local people to put some water in earthen pots for thirsty birds in summer season.
- 7) **Cycle Day** – participation of students and staff members not to use more petrol/diesel vehicle for clean environment.
